

Check out what's new at Marietta

We are so excited!
Making your life easier!
Improving our services!

AND
*Even some product specials
to help you save money.*

Very Cool

From the Desk of Chianna:

*You may not be aware that Marietta Animal Hospital is now offering the opportunity to make your life a little easier and keep you connected to your pet's health care through **Pet Portals**. This service allows you to:*

- *View your pets information*
- *Order prescription refills*
- *Request appointments*
- *Update your contact information*
- *Post photos of your pet*
- *Print proof of vaccination*

*And you can do it all from the comfort of your own home computer (even in your PJs and fuzzy slippers). However, we are also tickled pink (or brown and white, in my case), to now offer **Vetstreet Online Pharmacy** to help us meet your needs and improve our customer service.*

Why is Marietta's Online Pharmacy and Hospital Pharmacy better than those OTHER places on line?

I'm so glad you asked.

- *First and foremost, you need to know that since you are a client of ours, there is a doctor-patient relationship. This means that ALL of your personal, financial and medical information is confidential and can NEVER be released without your permission. Many online businesses, routinely, buy and sell personal and financial information. We don't. . .EVER.*
- *Some products are only sold from the manufacturer to veterinarians. This means that some online pharmacies may get their products from*

other sources or even from another country. It may not be as safe as what you can get in this country, cuz the USA has lots of rules to keep food and medications safe.

- Some manufacturers only guarantee their products if you buy them from a veterinarian. It means that we've, 'got your back'.*
- When we make money, we use it for staff education and salaries, new equipment, facility improvement and veterinary training . . . NOT stock options and personal jets.*
- We will always strive to verify that what you want is what you actually need. We won't blindly sell you anything, just to make money.*
- We can offer products that we don't normally keep in the hospital to give you a wider variety of products and manufactures to choose from.*

And best of all, when you come into the hospital. . .we have manufacturer coupons and specials!

Current Offers Include:

FRONTLINE: Buy 6 doses from your Vet, get 2 doses FREE!

That's a savings of up to \$36.00

HEARTGARD: Buy 12 dose, get \$5.00 back from mail-in rebate.

ADVANTAGE MULTI: Get one dose free when you buy a 6-pack.

That's a savings of \$16.00.

ADVANTAGE: Get one dose free when you buy a 4-pack.

That's a savings of \$14.00.

We also offer the option to purchase single monthly doses of both flea control and heartworm preventive when your finances are pinched tight.

We always keep some of the current coupons at hand in the clinic, so you can benefit from the savings all year long when you come visit us.

If you compare our prices and the prices from those OTHER places, you will see that there is very little difference in cost and, sometimes, we are the less expensive option. We also have the option to deliver product to your front door, just like they do. So they have those silly commercials that make it out as if they are doing you a favor. . .really, they are all flash and no substance.

So check us out at mariettalovespets.com
